From Becky: A Spring of Good News!

The Wright Family with our youngest 4 children, including Jeffrey (left) and Jaycie, placed with us for adoption in February 2009.

Mom of Nine? Who would have imagined...

Becky grew up the second oldest of five siblings, then later gained three step-siblings. Large families seemed the norm, for sure. But she never imagined having NINE of her own! God forms families through various and creative means, and the Wright family has been blessed again in February, with the addition of Jeffrey (age 9) and Jaycie (who just turned 3 this month). These precious ones came through adoption, "God's sweet surprise", Becky describes.

Jeffery and Jaycie, legal orphans and half-siblings, were adopted out of foster care from the State of West Virginia. Since Becky's music (for the most part) centers around adoption, foster children, birth parents, etc., she was well aware of the almost 130,000 children in permanent foster care in the USA alone, who are waiting to be adopted by their "forever family". If you'd like more information about **adopting** one of these waiting kids (and/or being a much-needed **foster parent**), several resources are available at <http://www.adoptuskids.org/>

, www.davethomasfoundation.org, www.okdhs.org/programsandservices/adopt/docs/faq.htm and other Dept. of Human Services in all 50 states.

"Act of Life", the brand new theme song written by Becky for the non-profit organization by the same name, was performed live for the first time on March 21st in Houston, TX. Becky played the keyboard and harmonized while **Julie Stobbe**, Founder & President of Act of Life.org, sang lead on this powerful and illuminating song. A colleague of both women, **Dennis Jernigan** (world-renowned worship leader & songwriter), introduced the ladies, whose similar ministries seemed to fit together perfectly. <http://www.actoflife.org/> is based in Houston, and seeks to educate crisis pregnancy counselors how to help women make life-affirming choices during an unplanned pregnancy. "Choosing ADOPTION is an act of LIFE, in a life-and-death time of decision."
