

“Becky Wright is an inspirational and dynamic performer and speaker! I had the pleasure of working with Becky as she was the **keynote speaker** at an adoption conference [Louisville, KY] and found her to be **extremely compassionate about the children** available for adoption. She promotes adoption in every way and motivates those around her to do the same. Becky uses her talent to send out the message that *every child* deserves a family. She was a **huge hit** at the conference – she had everyone **laughing** and **crying** and sharing stories about their adoptive families. She is a joy to be around; her music is both beautiful and encouraging.”
